

HANDOUT – IDOLATROUS IMAGE

The idolatrous image was 60 cubits by 6 cubits or 90 ft by 9 ft.

A modern man is about 4 cubits by 1.3 cubits (6 ft by about 2 ft)

The container on the back of an 18-wheeler is 40 ft by 8.5 ft H and 8 ft W.
That translates to 26.7 cubits by 5.6 cubits(H) by 5.3 cubits(W).

The idolatrous image was about the size of two of these containers stacked end-to-end – plus another 10 feet in height.

The pictures below give you relative scale.
